General info about Zoom:

- Controls only appear when you move your mouse (or touch the screen) within the Zoom window.
- We suggest the Speaker view rather than the Gallery view for this program. In the upper right corner, toggle between seeing only the person who is speaking or a gallery of attendees.
  - Whichever view you are currently using, the button shows the option to switch to the other. For example, when you're in "speaker view" the button at the top of the screen will say "gallery view," because it is offering you the option to switch to that. This can be confusing.
- The Chat option appears along the bottom of the screen, right of center. You may chat to the entire group or to another individual. Be aware that when the recording is downloaded, a copy of the chat is included. This enables us to capture questions, comments, and suggestions. However, ALL chats are captured, so please don't chat anything confidential to another attendee.
