

Felt Mouse Ornament Instructions

Materials

Materials in kit:

- Mouse body and ears template
- Grey felt
- Red felt
- 2 googly eyes
- 1 red pom pom
- 1 candy cane

Materials you will need:

- Scissors
- Glue
- Marker/Pen to trace shapes onto the felt

Instructions

1. Cut out the templates for the body and ears.
2. Trace the body and ear templates onto the felt fabric using a marker or pen

3. Cut out the felt body and ears.
4. Make slits in the felt for the candy cane tail and the ears. These slits are marked on your paper template. (Tip: The slits are easier to cut if you fold the felt and cut along the crease.)
5. Slip the ears through the slit at the front of the body piece of felt.
6. Glue the eyes and red pom pom nose towards the tip of the body piece to create the face. Before moving onto the last step, please make sure the glue has dried so the eyes and pom pom stay in place.
7. Insert the candy cane into the slits at the back of the felt body piece. The straight end of the candy cane should be tucked into the loop created by the ears.
8. Your felt mouse should now be complete and can be hung as a decoration. Enjoy!
